

## Research Interests

Advancing human-AI collaboration through the development of interactive, socially adaptive robots. Focusing on robot learning via multimodal systems, reinforcement learning, and human feedback.

## Education

- 2026–2027 **Georgia Institute of Technology, College of Computing**, Atlanta, Georgia USA  
GPA N/A M.S. in Computer Science, Specialization in Computational Perception and Robotics (In Progress)
- 2021–2025 **Washington State University, Honors College**, Pullman, Washington USA  
GPA 3.94 B.S. in Computer Science, Minor in Mathematics with Summa Cum Laude  
Senior Design Project: [Retrieval-Augmented Generation \(RAG\) using Knowledge Graphs and Vector Search](#)

## Honors & Awards

- 2023 **CS Research Mentorship Program Scholar, Google Research**  
Accepted to a three-month program that matches students with Google mentors and peers to support their pursuit of computer science research pathways.
- 2023 **Generation Google Scholarship**  
Awarded based on the strength of each candidate's commitment to diversity, equity, and inclusion, demonstrated leadership, and academic performance.
- 2023 **National Institute of Health Fellowship - MARC**  
NIH-funded opportunity for undergraduate students from underrepresented backgrounds to embark on a two-year scientific research program, leadership development, and graduate-school preparation.
- 2021 **National Institute of Health Fellowship - ESTEEMED MIRA**  
NIH-funded unique opportunity for undergraduate students from underrepresented groups planning to major in biomedical science and engineering fields.

## Conference Publications

- [1] **Social Triangles and Aggressive Lines: Multi-Robot Formations Impact Navigation and Approach**  
A. Bacula, **E. Villalovoz**, D. Flynn, A. Mehta, H. Knight  
IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS), 2023

## Professional Experiences

- Summer 2025 **Meta**, Remote USA  
[Production Engineering Fellow](#), Advised by Alexandre Maciel, Kush Desai  
Deployed a full-stack Flask app with Docker on DigitalOcean, integrating MySQL and Nginx, automating CI/CD to cut release time by 80%, and adding Prometheus/Grafana monitoring for reliable performance.
- 2023–2024 **Washington State University**, Pullman, Washington USA  
[Undergraduate Research Assistant](#), Advised by [Janardhan Rao Doppa](#), [Haipeng Cai](#)  
Analyzed security vulnerabilities in LLM-generated code and applied Bayesian optimization to enhance prompt accuracy for secure and functionally correct code generation.
- Summer 2024 **Carnegie Mellon University**, Pittsburgh, Pennsylvania USA  
[Robotics Institute Summer Scholars](#), Advised by [Henny Admoni](#)  
Developed hierarchical reward learning systems leveraging Bayesian inference and human feedback to align autonomous systems with human preferences and improve adaptability in dynamic settings.
- Summer 2023 **Google**, Sunnyvale, California USA  
[Software Engineering Intern \(STEP\)](#), Advised by Arun Tej Chennadi, Paul Valdez  
Optimized internal database processes with C++ and SQL, reducing runtime by 66% and enhancing data visualization through real-time dashboards and dynamic graphs.

Summer 2022 **Oregon State University**, Corvallis, Oregon USA  
[Robots in the Real World](#), Advised by [Heather Knight](#)  
Developed geometric features for multi-robot expressive motion, integrating performing arts techniques to enhance robot character and intelligence.

---

## Teaching

Spring 2025 **CPT\_S 315: Introduction to Data Mining** WSU  
Undergraduate Teaching Assistant

Fall 2024 **CPT\_S 350: Design and Analysis of Algorithms** WSU  
Undergraduate Teaching Assistant

Fall 2023 **CPT\_S 355: Programming Language Design** WSU  
Undergraduate Teaching Assistant

Fall 2022 **CPT\_S 121: Program Design and Development C/C++** WSU  
Undergraduate Teaching Assistant

---

## Outreach

Summer 2025 **WSU MARC & MIRA Program** WSU  
**Alumni Speaker and Mentor**  
Invited to present to undergraduate researchers about the graduate school application process. Shared personal experiences, strategies for overcoming rejections, and actionable advice for pursuing research opportunities.

2022–2024 **WSU VCEA** WSU  
**Voiland College Ambassador**  
Represented and connected Voiland College with industry, alumni, and prospective students, sharing unique experiences and perspectives to promote the college's mission and transformative impact.

Summer 2024 **CMU RISS RoboLaunch** CMU  
**Website Coordinator**  
An initiative to explore the world of robotics through a series of talks and interactive workshops. Responsible for updating the website to ensure accessibility and provide up-to-date information.

2021–2023 **WSU Responsibility Opportunity Advocacy Respect (ROAR)** WSU  
**Peer Ally**  
Collaborated with ROAR students by providing support in attending classes, facilitating social integration, participating in university events, and fostering inclusive experiences.

---

## Technical Skills

### Programming Languages

Python, C/C++, SQL, JavaScript, TypeScript, HTML/CSS, C#, MATLAB, R, Haskell, Swift

### Developer Tools

Git, GitHub, GitLab, Docker, Conda, VS Code, Rider, CLion, PyCharm, RStudio, Google Colab, LaTeX, DigitalOcean, Xcode, AWS, Ollama, Unsloth, Vercel, Ngrok, Clerk, SQLite, MLflow, CI/CD, DVC, Postman, MySQL, Jupyter, Bash, GitHub Actions

### Technologies/Frameworks

React, PyTorch, TensorFlow, scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, Flask, Jinja2, OpenAI Gym, Avalonia, .NET, Leaflet.js, Next.js, Tailwind CSS, Robot Operating System, Linux, Hugging Face Transformers, REST API, FastAPI, SQLAlchemy, Pydantic, React Router, Vite, face\_recognition, OpenCV, LangChain, LangGraph, Firecrawl, WordCloud, NLTK, Node.js
